2020

CANADA
360

THIS SUMMER EARN A HIGH SCHOOL CREDIT ONLINE AND JOIN OUR VIRTUAL EXPEDITION ACROSS CANADA

Explore Canada's complex history, impressive geography, and its unique people, cultures, and languages in this fun-filled cross-country virtual journey with two veteran Ontario certified, experiential teachers.

While earning your credit online, your friendly guides will take you from sea-to-sea, travelling from Charlottetown, Québec City, and Montréal, before stopping in the nation's capitol Ottawa, and Canada's largest city Toronto. We explore Ontario with visits to Niagara, Tobermory, Manitoulin Island and Algonquin Park, before crossing the spectacular Prairies and heading west to Calgary, Banff, and Jasper. Crossing the mighty Rocky Mountains, we'll finish our journey in Vancouver and the beautiful waters surrounding Vancouver Island.

Choose from either Grade 9 or 10 Geography, or grade 11 or 12 Interdisciplinary Studies (IDC). All courses are Ontario Ministry of Education approved high school credits and are provided through an Ontario public School Board, Fuller Academy, and ISX Canada.

Note: Due to government mandated travel restrictions, some itinerary locations may change.

Follow along live, ask questions, and live the adventure - all online.

**THE FUN BEGINS
JULY 15th, 2020**

Accredited high school program: \$800
Content and Curriculum Package only: \$500

Canada 360™ is a blended live and pre-recorded video travel blog hosted by teachers. Explore various aspects of Canadian social, economic, and cultural life - past, present, and future! Throughout the program, students explore many of Canada's formative people, places, and events, its artistic and cultural icons, and the grassroots movements that have shaped Canada to make it what it is today.

*Flexible dates available in program alternatives.
Minimum Enrollment per course may apply
